Hizentra 20% 10g Pre-Filled Syringe Update
Customer Letter # 2024-12

2024-03-11

Dear Colleagues:

Further to Customer Letter [2024-09](#), Canadian Blood Services will be carrying the Hizentra 10g size of Hizentra 20% in a Pre-Filled Syringe (PFS) format which will be replacing the 10g vials of Hizentra 20%. The 10g vials will no longer be available once our current inventory has been depleted. All other vial sizes of Hizentra have previously been replaced by the PFS format..

For additional information, please refer to the attachments provided by CSL Behring.

Please share a copy of this customer letter with healthcare professionals at your hospital who might be interested in this information.

This customer letter can also be viewed at www.blood.ca in the "Hospital Services" section. If you have questions about this letter, or if you require it in an accessible format, please contact your local hospital liaison specialist.

Sincerely,

Jody Faught, Director, Integrated Supply Chain Planning,
Business Systems & Analytics
