

This report includes studies approved up until July 3, 2024

REP/REB Number	Study Title	Principal Investigator		Initial Approval Date (YYYY-MM-DD)	Type of application
		First Name	Last Name		
2023-050	Donor Health and Travel Survey: Learning more from our donors moving forward (post pandemic)	Sheila	O'Brien	2024-04-12	Research; Data
2023-048	Understanding new practices of living organ donation programs	Kathy	Yetzer	2024-04-22	Research; Data
2023-044	Surveillance of emerging pathogens to ensure blood supply safety	Carmen	Charlton	2024-04-29	Research; Data, Biologics
2023-041	Population Coverage Modeling for new Cellular Therapies	Martin	Maiers	2023-11-24	Research; Data
2023-040	Predictive Value of Monocyte Monolayer Assay for Hemolytic Disease of the Fetus and Newborn	Nadine	Shehata	2023-12-01	Research; Data, Biologics
2023-027	New tools to teach providers how to obtain informed consent for blood	Marissa	Laureano	2024-02-08	Research; Data
2023-023	Fc receptor blockade in transfusion medicine	Alan	Lazarus	2023-12-21	Research; Data, Biologics
2023-021	Liquid gold: Exploring the social landscape of expanding use of immune globulin in Canada - Phase 2	Kelly	Holloway	2023-09-19	Research; Data
2023-016	Genetic sequencing of blood donors: social, ethical, and legal considerations	Jennie	Haw	2024-01-26	Research; Data
2023-012	Comparison of donor versus platelet component testing for high titre isohemagglutinins	Melanie	Bodnar	2023-04-26	Quality Improvement / Program Evaluation; Data
2023-008	Studies of Fc Receptor-Mediated Phagocytosis and Antibody-Dependent Cellular Cytotoxicity	Donald	Branch	2024-01-08	Research; Data, Biologics
2023-004	Canadian Blood Services netCAD Blood4Research Program	Le	Lam	2024-03-11**	Canadian Blood Services Program; Quality Improvement / Program Evaluation and Research
2022-047	Geography, ethnicity and anti-M hemolytic disease of the fetus/newborn	Matthew	Yan	2023-02-05	Research; Data
2022-043	Increasing Opportunities for Live Kidney Donations by Creating Universal Blood-Type Organs for Kidney Transplant	Steven	Shechter	2024-01-09	Research; Data
2022-036	Evaluation of a no-prophylactic platelet transfusion strategy in patients undergoing autologous stem cell transplantation: a retrospective study	Brett	Houston	2023-01-04	Research; Data
2022-035	Collection of convalescent plasma from donors who have recovered from COVID-19 and been vaccinated to support the REMAP-CAP trial.	Chantale	Pambrun	2022-02-11	Research; Data, Biologics

*This list does not include studies approved under the Cord Blood 4 Research or NetCAD Blood 4 Research Programs

**Program renewal date

REP/REB Number	Study Title	Principal Investigator		Initial Approval Date (YYYY-MM-DD)	Type of application
		First Name	Last Name		
2022-029	Evaluating Modified Cryopreservation of Sickle Trait Red Blood Cells	Jason	Acker	2022-08-19	Quality Improvement / Program Evaluation; Data, Biologics
2022-024	Canadian Immunization Research Network (CIRN) National Measles Serosurvey Pilot	Sheila	O'Brien	2023-01-23	Research; Data, Biologics
2022-023	Use of Human Serum Albumin in Manitoba Intensive Care Units	Piotr	Wtorek	2023-03-08	Quality Improvement / Program Evaluation; Data
2022-018	Hepatitis D virus screening of HBV positive deferred donations	Sheila	O'Brien	2024-01-04	Research; Data, Biologics
2022-017	RBC Hemolysis and Cellular Effector Mechanisms (RHANCEM)	Donald	Branch	2022-09-20	Research; Data, Biologics
2022-016	The Impact of Blood Donor Characteristics on Blood Product Quality	Mindy	Goldman	2022-12-13	Research; Data, Biologics
2022-011	Diverse gbMSM and trans populationsâ€™ views on plasma donation and donor screening questions	Jacqueline	Gahagan	2022-06-01	Research; Data
2022.007	Development of novel methods to detect immune responses to viral infections and vaccination	Anne-Claude	Gingras	2022-07-18	Quality Improvement/Program Evaluation; Data, Biologics
2022-004	Mosquito-borne disease risk in Eastern Canada for humans.	Antoinette	Ludwig	2022-07-27	Research; Data
2021-044	Are people who donate blood taking drugs to prevent or treat HIV?	Sheila	O'Brien	2022-05-21	Research; Data, Biologics
2021-042	Health Economics Modelling of Plasma Donation in CANada (HEMO-CAN)	Nick	Bansback	2022-02-02	Research; Data
2021-041	Release of already collected plasma from donors infected with COVID-19	Mel	Krajden	2022-01-18	Quality Improvement / Program Evaluation; Data, Biologics
2021-036	Evaluation of the ORBCoN Program	Jeannie	Callum	2022-01-14	Quality Improvement / Program Evaluation; Data
2021-025	Heart and Lung Reconditioning Study	Darren	Freed	2022-12-22	Research; Data, Biologics
2021-022	Improving access to cord blood transplantation through cell expansion	Sandra	Cohen	2021-09-09	Research; Data
2021-016	Pilot study of sex-matched vs. sex-mismatched red blood cell transfusion	Michelle	Zeller	2021-08-18	Research; Data
2021-001	How do blood donors feel about the flu and COVID-19 vaccines?	Sheila	O'Brien	2021-04-06	Research; Data
2020-062	Validation of a new genotyping platform for blood antigen typing	Celina	Montemayor Garcia	2021-02-26	Research; Data, Biologics
2020-057	Studying the genes controlled by MTF2 in blood cells.	William	Stanford	2021-01-13	Research; Biologics
2020-052	Optimization of Regulatory NK cell expansion for therapy of cGvHD	Kirk	Schultz	2020-12-15	Research; Data, Biologics
2020-050	A Phase IV trial of a hospital policy of Tranexamic acid to reduce transfusion in major non-cardiac surgery (TRACTION)	Ryan	Zarychanski	2021-02-05	Research; Data
2020-048	Candidate and Recipient Outcomes in the Highly Sensitized Patient Program	Patricia	Campbell	2021-04-15	Research; Data
2020-043	On-line donor survey to estimate risk factors for HIV	Sheila	O'Brien	2020-12-22	Research; Data

*This list does not include studies approved under the Cord Blood 4 Research or NetCAD Blood 4 Research Programs

**Program renewal date

REP/REB Number	Study Title	Principal Investigator		Initial Approval Date (YYYY-MM-DD)	Type of application
		First Name	Last Name		
2020-037	Assessing alternative donor screening questions in current donors	Jennie	Haw	2020-12-22	Research; Data
2020-033	HDFN due to Minor blood group alloimmunisation in Southern Alberta	Amuchou	Soraisham	2021-02-26	Research; Data
2020-028	Seroprevalence of Coronavirus Disease 19 (COVID-19) in Blood Donors	Sheila	O'Brien	2020-07-03	Research; Data, Biologics
2020-017	TRALI and delayed TRALI: a prospective study in critically ill children	Guillaume	Emeriaud	2020-07-31	Research; Data
2020-008	IN-TRUST: A Novel approach to Hemovigilance	Shouyan	Ning	2020-07-30	Research; Data
2020-005	Donor Characteristics and the Quality of Red Cell Concentrates	Jason	Acker	2020-02-26	Research; Data, Biologics
2019-020	Feasibility of implementing source plasma donation with alternative eligibility criteria for MSM	Mindy	Goldman	2019-10-22	Research; Data
2019-010	Ethnic distribution of donor-recipient pairs participating in the Canadian Kidney Paired Donation program	Istvan	Mucsi	2019-05-27	Research; Data
2018-047	Transfusion-Associated Dyspnea; Prospective, Observation and Laboratory Assessment (TADPOL)	Christine	Cserti-Gazdewich	2018-11-15	Research; Data
2018-046	Immunity of Hematopoietic Cell Transplant Recipients	Jan	Storek	2019-03-08	Research; Data, Biologics
2018-040	Surveillance of Donor Risk Factors for Transmissible Disease	Sheila	O'Brien	2018-11-28	Research; Data
2018-039	Canadian Blood Services Cord Blood for Research Program	Jelena	Holovati	2018-11-07**	Canadian Blood Services Program; Research

*This list does not include studies approved under the Cord Blood 4 Research or NetCAD Blood 4 Research Programs

**Program renewal date
